This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on <https://disclose-register.companiesoffice.govt.nz/>.

Clarity Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013 (FMC Act). You can also seek advice from a financial adviser to help you make an investment decision.

1. KEY INFORMATION SUMMARY

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Clarity Funds Management Limited (**Clarity, we or us**) will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Clarity, and its investment managers, and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

This Product Disclosure Statement (PDS) contains information relating to the offer of eight Clarity Funds.

- Clarity **Trans-Tasman Value Fund**¹
- Clarity - Capital Group **New Perspective Fund**²

2. Capital Group and Capital Group New Perspective are trademarks of The Capital Group Companies, Inc.

These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at section 3 (*Description of your investment option(s)*).

Who manages the Clarity Funds Investment Scheme?

The Manager of the Funds is Clarity Funds Management Limited. See section 7 (*Who is involved?*) for more information.

What are the returns?

The returns on your investment are determined by any increase or decrease in the unit price, and any distributions to you. We intend for the Fixed Income Fund, Dividend Yield Fund, New Zealand Equity Fund, Trans-Tasman Value Fund and Diversified Income Fund to pay quarterly income distributions. The other funds offered under this PDS do not distribute income; any accrued income for these Funds is reflected in each Fund's unit price. For further information please refer to section 2 (*How does this investment work?*).

How can you get your money out?

You may redeem all, or part, of your investment at any time by delivering a notice to us in writing to that effect. Minimum redemption amounts apply. For each Fund, payment will normally be made within 7 business days of receipt of your request by us. In some circumstances, we may suspend or defer redemptions where we consider there is a material adverse change in the position of a Fund or it is advisable in the interests of investors in the Fund.

Your investment in the Clarity Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment. See section 2 (*How does this investment work?*) for more information on making withdrawals.

How will your investment be taxed?

Each Clarity Fund is a registered portfolio investment entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/toii/pir/workout. See section 6 of this PDS (*What taxes will you pay?*) for more information.

Where can you find more key information?

Clarity is required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.clarityfunds.co.nz. We will also give you copies of those documents on request.

2. HOW DOES THIS INVESTMENT WORK?

This PDS is an offer of units in the Clarity Funds. Each Fund is constituted within a managed investment scheme that is governed by a Trust Deed dated 12 August 2019.

A managed investment scheme enables investors to pool their investments together to achieve benefits that may not be possible individually, including access to a wider range of assets and greater investment diversity. Clarity Funds offers professional investment management, ease of administration, and utilises the benefit of the PIE tax regime.

The money you invest buys units in the Fund(s) you choose. The price of each unit you receive depends on the value of the Fund at the time you invest. We calculate the unit price by dividing the Net Asset Value of the Fund by the number of units the Fund has on issue. We also have the discretion to include trading costs in determining the unit price received. The unit price is calculated each business day and published on our website. Daily unit prices for each Fund will change as the market value of those Funds' assets change. The return on your investment is reflected in any increase or decrease in the unit price and any distributions from the Fund(s).

Units do not give you legal ownership of the Fund's assets, however they do give you rights to the returns earned on those assets.

The number of units you have (your unitholding), when multiplied by the unit price, gives you the total value of your investment in the Fund (although the impact of tax can result in a change in the number of units you hold, up or down, as the unit price is calculated before tax).

The assets of each Fund are separate and are not available to meet the liabilities of any other Fund in the scheme.

Investment decisions are very important. They often have long-term consequences. We recommend you read all documents carefully. Ask questions. Seek advice from relevant professionals before committing yourself.

Distributions

The table below sets out the distribution details relevant for each Fund.

Fund Name	Quarterly Income Distributions	No Income Distributions
Fixed Income Fund	✓	
Dividend Yield Fund	✓	
New Zealand Equity Fund	✓	
Trans-Tasman Value Fund	✓	
Global Shares Fund		✓
New Perspective Fund		✓

Where applicable, the Funds generally distribute on a quarterly basis for the distribution periods ending January, April, July and October. We determine the amount available for distribution (if any).

Payments are made within 1 month of the distribution ex-date and are generally paid on the 15th (or the next business day) of the following month.

For tax purposes distributions are considered non-taxable income.

You can elect to have your distribution paid into your nominated bank account or you can reinvest by purchasing further units in the same Fund. You can elect which of these options you prefer in your initial application, or by writing to us.

We can alter our distribution policy in consultation with our Supervisor and after advising you of any significant change.

Making investments

You can invest by completing the application form accompanying this PDS and sending it back to us, or by completing an online application form through www.clarityfunds.co.nz. Please ensure all required information is provided, including how much you would like to invest and which Fund(s) you want to invest in.

Type of Contribution	Minimum Amount
Minimum initial investment amount	\$10,000
Minimum additional investment amount	\$1,000

We may, at our discretion, change the minimum investment amounts, and the minimum balance, and accept applications for investments below the stated minimum amount.

We may accept or refuse any application either in whole or part. Application monies received in respect of rejected applications will be refunded, without interest.

Your investment will only proceed once the Administration Manager confirms with us that the funds received have been cleared.

The unit price is determined as at the end of each business day. We will issue your units at the unit price for that Fund. We also have the discretion to include trading costs in determining the unit price received.

If your application is received and accepted by the Administration Manager before 1.00pm on a business day, units will be issued to you at the price determined as at that day. If your application is received and accepted after 1.00pm, units will be issued to you at the price determined as at the end of the following business day.

Withdrawing your investment(s)

You may withdraw all or part of your investment (subject to any minimum amounts that apply) in a Fund by delivering a notice to us in writing to that effect. Units will be redeemed and paid into your nominated bank account, which must be in the name of the investor.

Type of Redemption	Minimum Amount	Condition
Minimum withdrawal amount	\$1,000	If your withdrawal would make your investment fall below \$10,000, you must withdraw all of your investment.

We may, at our discretion, change the minimum withdrawal amount and the minimum balance, and accept withdrawals below the stated minimum amounts.

The price of a unit is determined as at the end of each business day. We will redeem your investment, to your nominated bank account, at the unit price for that Fund. We also have the discretion to include trading costs in determining the unit price received.

If your withdrawal request is received by the Administration Manager prior to 1.00pm, the price applicable to your withdrawal request will be the price determined as at that day. If your withdrawal request is received after 1.00pm on a business day, the applicable price will be the unit price determined as at the end of the following business day.

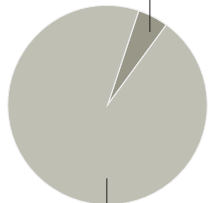

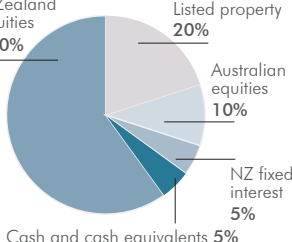

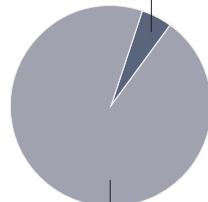

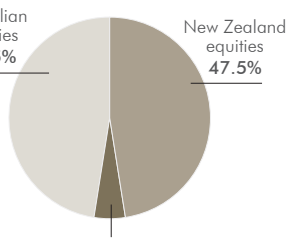

Under the Trust Deed, we may, in certain circumstances, suspend or defer the redemption of units. We will do this when we, in good faith, determine that it is in the general interests of all investors to defer or suspend immediate redemption of units. We must obtain the Supervisor's prior agreement where this will be for a period longer than two weeks. These conditions are set out in the Other Material Information document which is available at <https://disclose-register.companiesoffice.govt.nz/>.

How to switch between funds

You may make a request to switch between any of the Clarity Funds. Completed switch requests will be made on the next available unit price. Switches will be treated as a withdrawal request from one Fund and a subsequent application into another Fund.

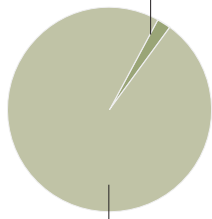

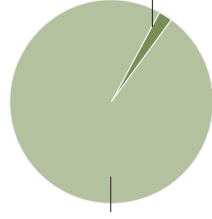

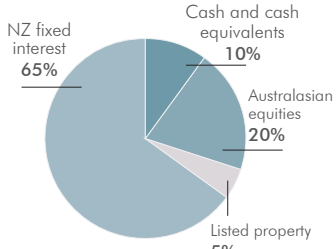

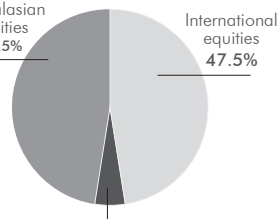

Please contact us for more information.

1. The current target investment mix is shown, but variations around these targets are likely from time to time.

2. Where Funds have not been in existence for five years, the risk indicator has been calculated using the market index returns or a combination of actual returns and the market index returns, as shown in the table. As a result, the risk indicators may provide a less reliable indicator of potential future volatility of the Funds.

The market index returns have been used up to the inception date of each fund, as shown in the table.

Fund Name	Market Index Returns Used
Global Shares Fund	to 03/04/2017
Diversified Income Fund	to 03/04/2017
Diversified Growth Fund	to 03/04/2017
New Zealand Equity Fund	to 25/10/2019
New Perspective Fund	to 25/10/2019

Statement of Investment Policy and Objectives

The tables shown on pages 9 and 10 are a summary of our Statement of Investment Policy and Objectives (SIPO). We regularly review the SIPO. We may amend it in accordance with the terms of the Trust Deed, subject to the provisions of the FMC Act.

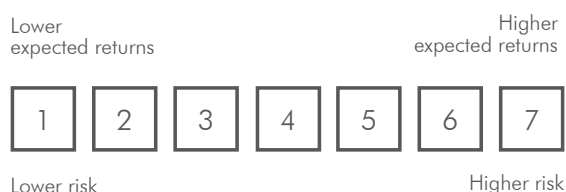

Before we make changes, we will consider if the changes are in the best interests of investors and consult with the Supervisor. Where material, we will give you written notice at least 30 days before the date on which the revision takes effect.

You will find the most current version of the SIPO at <https://disclose-register.companiesoffice.govt.nz/>.

4. WHAT ARE THE RISKS OF INVESTING?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

The risk indicator for each of the Funds can be seen in section 3 (*Description of your investment option(s)*).

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance.

The risk indicator is based on the returns data for the five years to 31 March 2020 where available. The New Zealand Equity, Global Shares, New Perspective, Diversified Income and Diversified Growth Funds have not been operational for the required five years. We have therefore determined the risk indicator using a combination of market index returns and actual Fund returns, as detailed in section 3 (*Description of your investment option(s)*).

While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each of the Funds.

General investment risks

Some of the things that may cause a fund's value to move up and down, which affect the risk indicator, are:

Market Risk
Many factors affect financial market performance, meaning that the value of investments rise and fall as a result. This could be economic, political, tax and regulatory conditions as well as general market sentiment. The performance of asset categories and individual asset categories could be impacted by these or business specific conditions. The risk is mitigated by holding a diverse portfolio of securities.
Interest Rate Risk / Maturity Risk
Changes in interest rates will alter the market value of securities in a Fund. The sensitivity of the changes will depend on the original level of interest rates, the length to maturity of the security and the level of coupon that the particular security attracts. Interest rate risk is managed by "laddering" a Fund's portfolio, creating regular reinvestment opportunities.
Credit Risk (applies primarily to the Fixed Income Fund)
A risk associated with fixed income securities where an issuer does not make a payment, either a coupon payment or return of principal, when it is due. This risk is mitigated by holding a diverse portfolio of securities that is not heavily concentrated in one security.
Currency and Hedging Risk
The risk of losses from fluctuating foreign exchange rates. We may seek to mitigate the risk of currency exposures by offsetting the impact of currency fluctuations by the use of forward contracts that will lock in an exchange rate for a currency transaction at a future date, known as 'hedging'. Currency hedging provides some protection against changes in currency exchange rates.
Liquidity Risk
The risk that an investment cannot be traded for periods in volatile and illiquid market conditions. This may affect the processing of Fund transactions and there could be a delay in an investor receiving requested funds. Liquidity risk is managed by diversifying the securities held and holding enough liquid assets to manage short-term obligations.
Investment Return Risk
Past performance is no guarantee of future performance. There is a risk that the investment objectives of a Fund may not be met or the Fund underperforms its benchmark index over the suggested minimum investment timeframe. This risk is managed through the regular monitoring of the Funds' performance and target asset allocation by the Manager.

Other specific risks

We have identified that there are no other specific risks that significantly increase the risk to returns for investors.

There are other operational factors that may increase the risk for investors. These risks relate to us, in our role as manager, our business partners and how these parties manage and operate their obligations to the Funds. We have established processes to mitigate these risks where possible. But there are risks arising from errors in procedures or systems which may have an adverse effect your investment.

More information relating to risks is available in the Other Material Information document which is available at <https://disclose-register.companiesoffice.govt.nz/>.

We recommend that you seek professional advice before investing in any of the Clarity Funds to understand what risks are associated with this investment, especially in relation to your personal circumstances.

5. WHAT ARE THE FEES?

You will be charged fees for investing in the Clarity Funds. Fees are deducted from your investment and will reduce your returns. If Clarity invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term;
- one-off fees (for example, contribution fees). Currently there are no one-off fees charged by Clarity.

Total annual fund charges

Fund Name	Total fund charges, as a percentage of net asset value (excluding GST)		
	Management Fee	Estimated Other Administration Charges and Expenses	Estimated Total Annual Fund Charges
Fixed Income Fund	0.30%	0.35%	0.65%
Dividend Yield Fund	0.65%	0.35%	1%
New Zealand Equity Fund	0.65%	0.35%	1%
Trans-Tasman Value Fund	0.65%	0.35%	1%
Global Shares Fund	0.65%	0.35%	1%
New Perspective Fund	0.90%	0.35%	1.25%
Diversified Income Fund	0.55%	0.35%	0.90%
Diversified Growth Fund	0.75%	0.35%	1.10%

The total annual fund charges (excluding GST and any extraordinary expenses) shall not exceed the amounts shown above for each Fund. Fees are accrued daily, paid monthly in arrears to us and reflected in the unit price.

The charges outlined above cover;

Management fee: Each Fund has a maximum management fee, payable to Clarity for its services as Manager of the Fund.

Administration charges and expenses: The general administration costs and expenses of each Fund are 0.35% per annum. These include the Supervisor, Custodian, Administration Manager and Registrar fees, fund accounting, unit pricing, audit, legal fees, regulatory and compliance costs.

Additionally, the Manager and the Supervisor are entitled to be reimbursed out of each Fund for all other expenses properly and reasonably incurred by the Supervisor or the Manager in connection with carrying out their respective duties under the Trust Deed.

GST, at the applicable rate prescribed by the IRD, is currently payable on the Supervisor's fee, costs and expenses, the Administration Manager's fee and the Management fee.

There are no performance fees charged by us in relation to any of the Clarity Funds. If Clarity invests in other funds, those funds may charge fees (plus GST if applicable), including performance fees. These fees are included in the total annual fund charges above.

At the date of this PDS, the Diversified Income Fund invests into the Dividend Yield Fund and the Fixed Income Fund, and the Diversified Growth Fund invests into the Trans-Tasman Value Fund, the Global Shares Fund and the New Perspective Fund. Total annual fund charges from the underlying funds are fully refunded.

The actual charges may vary from time to time. Charges for the previous financial year are available in the latest Fund Update.

A buy/sell spread (to fairly allocate the costs of buying and selling underlying assets) may be applicable on investment and redemption, or on switches. These are amounts determined at our discretion on account of estimated costs which would be incurred if investments of the relevant trust were acquired or realised to make an investment or pay a redemption. For more information on current buy/sell spreads, contact us at info@clarityfunds.co.nz or 0800 990 055. We reserve the right to change these without notice if we believe this is warranted by market conditions.

Example of how fees apply to an investor

Sarah invests \$100,000 in the Diversified Growth Fund.

She is charged management and administration fees, which work out to about \$1,100 (1.1% of \$100,000). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year:

* Fund charges: \$1,100 plus GST

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Diversified Growth Fund. If you are considering investing in other funds or investment options in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

We can change the fees charged from time-to-time, with the approval of the Supervisor. We will give you three months' written notice before any fees are increased.

Clarity must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at www.clarityfunds.co.nz.

6. WHAT TAXES WILL YOU PAY?

Each Clarity Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/toii/pir/workout. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department.

It is your responsibility to tell Clarity your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

All investors have different tax positions and we encourage you to seek your own tax advice prior to investing.
