- InvestNow Milford Balanced Fund

This fund update was first made publicly available on: 3 May 2022

## What is the purpose of this update?

This document tells you how the InvestNow Milford Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Implemented Investment Solutions Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

**Objective:** aims to provide capital growth after the base fund fee, but before tax and before the performance fee over the minimum recommended investment timeframe.

**Strategy:** provides exposure to a diversified fund that primarily invests in shares, with a significant allocation to fixed interest securities.

Total value of the fund	\$4,194,197
Number of members in the fund	200
The date the fund started	5 October 2020

## What are the risks of investing?

Risk indicator for the InvestNow Milford Balanced Fund<sup>1</sup>.

⇐ Potentially lower returns			Potentially higher returns ⇐			
1	2	3	4	5	6	7
⇐ Lower risk			Higher risk ⇐			

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

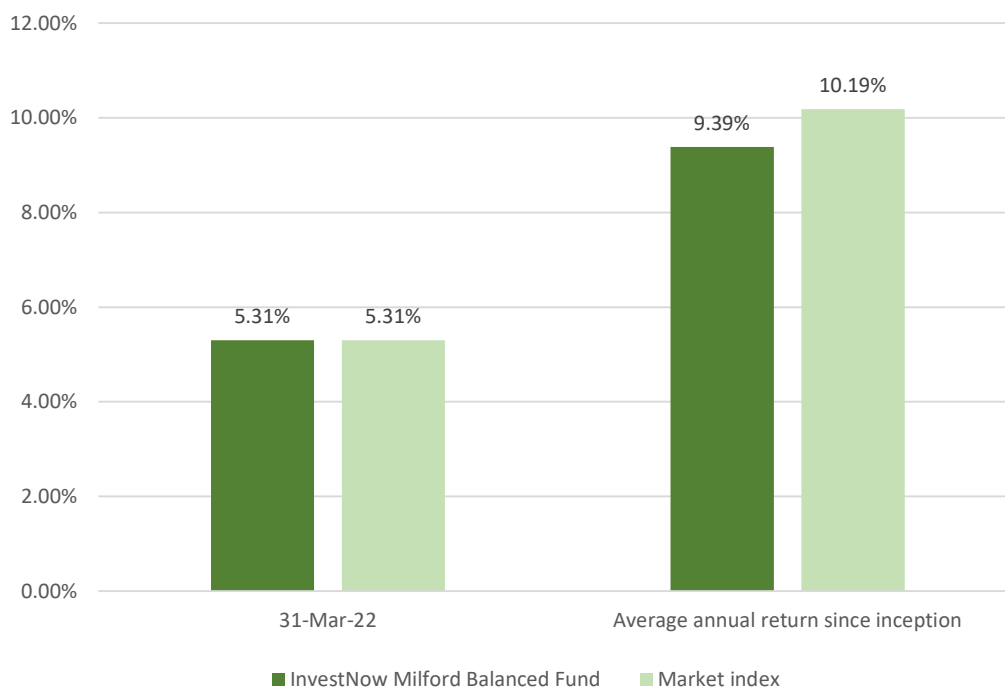

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	5.31%
Annual return (after deductions for charges but before tax)	5.60%
Market index annual return (reflects no deduction for charges and tax)	5.31%

The market index return is a composite of benchmark index returns weighted for the Fund's target investment mix. The market index return is before tax and fees. This has been the market index since the inception of the fund. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

### Annual Return Graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the InvestNow Milford Balanced Fund are charged fund charges which are:

	% of net asset value (including GST)
Total fund charges (estimate) <sup>ii</sup>	1.08%
<b>Which are made up of:</b>	
Total manager and administration charges	1.05%
<b>Including:</b>	
Manager's basic fee	1.05%
Other management and administration charges	0.00%
<b>Total performance-based fees</b>	<b>0.03%</b>

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the InvestNow KiwiSaver Scheme Diversified Funds #1 on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year Anthony received a return after fund charges were deducted of \$560 (that is 5.60% of his initial \$10,000). This gives Anthony a total return after tax of \$531 for the period.

## Notes

- A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility. Market index returns have been used until 31 October 2020 and fund returns thereafter.
- As the InvestNow Milford Balanced Fund only started accepting contributions on 5 October 2020 historical fee information is not available. The fund charges represent our best estimates of the fees and expenses that will be charged to the fund. These have been estimated using information provided by the underlying fund manager and by reference to the underlying fund's disclosure documents.
