Description of this fund

Objective: aims to outperform its benchmark index (50:50 combination of the MSCI World Index, and the MSCI Minimum Volatility Index optimised for NZ dollar based investors). Over the long-term (7+ years), also aims to deliver pre-tax post-fee returns of over 6.5% per annum, and to produce better returns than the broader global equity universe (as proxied by the MSCI World index), while at the same time achieving a significantly lower level of risk (which can be measured in terms of lower return volatility, and smaller drawdowns than the MSCI World Index).

Strategy: provides exposure to an actively managed fund that invests in global equities across various listed equity markets.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Notes

- i. A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility. Market index returns have been used until November 2021 and fund returns thereafter.
- ii. As the InvestNow Te Ahumairangi Global Equity Fund only started accepting contributions on 18 November 2021 historical fee information is not available. The fund charges represent our best estimates of the fees and expenses that will be charged to the fund. These have been estimated using information provided by the underlying fund manager and by reference to the underlying fund's disclosure documents.
- iii. As the fund has not existed for a full year, figures in this example are based on returns from the date of the first fund contribution (18 November 2021).
