# GUIDE INFORMATION

## Aim of guide

This guide is intended to provide general information on aspects of New Zealand's tax legislation which are relevant to investors using the InvestNow platform. This guide also explains how to use InvestNow Tax Summary Reports to prepare an income tax return (IR3), if required.

For simplicity, this guide has been prepared in relation to InvestNow investors with individual or joint accounts who are New Zealand tax residents\*. We recommend that non-resident, trust, company and other investors seek independent tax advice.

Please note, individual circumstances may differ, and tax situations may change if additional investments are held outside of InvestNow's custody. InvestNow does not provide independent tax advice, and we recommend seeking professional tax advice to ensure individual tax obligations are met.

## Contents

Types of funds offered by InvestNow	3.
Foreign Investment Fund (FIF) Rules explained	4.
InvestNow Tax Report	5.
InvestNow Tax Report: IR3 tax return use	8.
Contact us	11.

\*Different rules may apply to new migrants who are "transitional residents" for income tax purposes. Therefore, we recommend new residents seek independent tax advice.

This guide does not constitute a warranty or advice. You should seek independent professional expert advice on investments, tax, legal and accounting matters.

# TYPES OF FUNDS OFFERED BY INVESTNOW

For tax purposes, there are three types of funds available on InvestNow (along with term deposits):

## Unlisted multi-rate Portfolio Investment Entities (PIEs)

The majority of funds available on InvestNow are PIEs. When you invest in an unlisted PIE, InvestNow will pay tax on income attributed to you by the PIE during the tax year, at your nominated Prescribed Investor Rate (PIR), less any attributed tax credits. Provided that tax has been deducted at the correct PIR, this is a final tax (note that the situation may differ for trusts or companies). Distributions (dividends) paid by unlisted PIEs are excluded income and do not need to be included in your tax return.

PIE tax is deducted either when you sell units in a PIE fund, or after March 31 each year – if you do not have enough cash in your InvestNow account, we will sell units in your largest holding to cover it. If the amount of PIE tax credits attributed to you is higher than the tax amount, you would receive a PIE tax refund. A PIE Tax Certificate will be made available for you to download from the My Documents page in the InvestNow portal.

Our sub-custodian, Adminis Custodial Nominees Ltd, sends details of your PIE attributed income and PIE tax to the IRD each year. The IRD will use this information to pre-populate your income tax return and will check that tax has been deducted at your correct PIR – if not, the underpayment or overpayment will be included in your income tax summary. For joint accounts where we hold IRD numbers for both members, the IRD will automatically split the income equally between each member. This split can be manually adjusted in MyIR.

## Listed Portfolio Investment Entities (PIEs)

Listed PIEs on InvestNow are the Exchange Traded Funds (ETFs) offered by Smartshares. During the year, you may have received dividends from these funds. The dividends may include tax credits known as imputation credits, which are credits for NZ tax already paid by the companies the ETF is invested in, to ensure that the income isn't taxed twice. While you are not required to include Listed PIE distributions and related imputation credits in your income tax return, you can include the taxable (imputed) portion if you prefer. Including the dividends may be beneficial if your tax rate is less than 28%, as this will result in excess imputation credits that can be used to reduce the tax payable on your other income.

## Australian Unit Trusts (AUTs)

Australian Unit Trusts on InvestNow include select funds offered by Vanguard, Ellerstun, Dexus, and India Avenue. Income from these funds is subject to the Foreign Investment Fund (FIF) rules if you are not a de minimis investor, and the related FIF income must be included in your tax return. If you are a de minimis investor, then the distributions you receive from these funds should be included in your tax return.

# FOREIGN INVESTMENT FUND (FIF) RULES EXPLAINED

## De minimis exception from FIF rules

InvestNow has not deducted Resident Withholding Tax (RWT) from any dividend income received from an AUT on the assumption that the FIF rules apply to you as an investor. However, individuals can choose not to apply the FIF rules if the de minimis exception applies. This exception applies if the total cost of your FIF investments did not exceed NZ\$50,000 at any point during the income year. If the de minimis exception applies, you pay tax on the value of the dividends or distributions received from your FIF investments. You can choose to calculate your income using the FIF rules instead - however, if you elect to do this, you must apply the FIF rules for the next four years.

## FIF calculations

If you held units in any AUT during the income year, FIF calculations will be included in your Tax Summary Report. There are two calculation methods for which we report information:

- Fair Dividend Rate (FDR) - 5% of the opening market value at the beginning of the income year, plus a quick sale adjustment if you bought and then subsequently sold units in the same fund during the year.
- Comparative Value (CV) – Closing value plus gains, minus opening value plus costs. Gains include dividends, sale proceeds and tax credits. Costs include the cost of buying units, along with foreign income tax paid by you directly on income of the FIF (i.e. this would not ordinarily include withholding taxes).

Individual or joint investors can choose which of these calculation methods to use. We provide both calculations so that you can choose which method is more beneficial for you. You must use the same calculation method for all of your FIF investments. Also, you cannot claim a FIF loss in relation to any of the AUTs held on InvestNow. InvestNow's tax reports convert foreign currency amounts based on the exchange rate as of the day of the transaction. If you use, or have previously used, a different methodology in relation to your FIF investments, we recommend seeking independent tax advice on the approach required.

## Foreign tax credits

Australian withholding tax may have been deducted on dividends received from your AUT holdings. You may be able to claim this as a credit against your New Zealand income tax liability; however certain limits apply. The credit available in relation to tax withheld from a specific fund cannot exceed your New Zealand tax liability on that fund for the relevant year – if you did not receive any FIF income from a particular fund, you will not be able to claim the foreign tax credit.

Due to the way New Zealand's income tax legislation operates, it is not possible for InvestNow to determine the total foreign tax credit (if any) available to you without access to information on all of your income and expenses. Therefore, our tax reports specify the total foreign tax withheld.

If you have any questions regarding your ability to claim a foreign tax credit, we recommend you refer to Inland Revenue's "[Guide to foreign investment funds - IR461](#)" or contact your tax advisor.

# INVESTNOW TAX REPORT

## Understanding your InvestNow Tax Summary Report

You will receive your Tax Summary Report as an Excel spreadsheet with several tabs. The report can be requested and downloaded from the 'My Documents' page in your InvestNow account.

### Summary

The Summary tab shows the totals of the different types of income you have received, including:

- Interest from term deposits (coupons)
- FIF dividends
- Listed PIE dividends
- FIF income according to both the FDR and CV calculation methods
- Taxable income from unlisted PIEs
- Unrealised currency gains

Under 'Tax Credits' it shows the amount of foreign tax withheld on AUT dividends, RWT withheld on term deposit interest and imputation credits on listed PIE dividends.

## Income (All)

The Income tab shows a list of all the interest, dividends and distributions received over the year, separated by fund type (Coupons, PIE, Listed PIE and FIF) with subtotals next to each fund type. The gross income and the tax credits are shown for each dividend. Note that the tax treatment of the amount doesn't depend on whether or not your dividends were reinvested.

### Coupons

18 Jul 2017	428365	Application Trade	Buy 4,267.31 Vanguard International Shares Select Exclusions Fund at 1.0378	4,267	AUD	4,438.63	0.9373	4,760.0

## Unrealised Gains

If you held AUD on 31 March 2024, any unrealised gains or losses due to foreign exchange movements would be shown in this tab. The tax treatment of foreign exchange gains/losses is complex and we recommend you seek advice on your personal circumstances to confirm whether such gains/losses are required to be included in your IR3.

## Tax Credits

A list of tax credits received from FIF dividends and listed PIE dividends during the year.

### FIF – de minimis exception applies

If the de minimis exception applies (i.e. your FIF investments cost less than NZ\$50,000 at all times during the year), you can choose to pay tax on the distributions you received from your AUT holdings, instead of the income calculated under the FIF rules (assuming that you have not applied the FIF rules in any of the four prior years).

Tax Summary Report – Summary tab	IR3 Income Tax Return
1. Dividends – FIF – Equity, Offshore	Put this figure in box <b>17B</b>
2. Tax Credits – Foreign Tax Credit, Dividends - FIF	Put this figure in box <b>17A*</b>

\*In some cases, your ability to claim a foreign tax credit may be restricted, and therefore you may not be able to include the full amount in your return. In particular, the credit available in relation to a specific fund cannot exceed your New Zealand tax liability on that fund.

17 Did you receive any **overseas income**? Attach proof of overseas tax paid and a letter detailing any overseas losses to the return.

No  Go to Question 18      Yes  Print the totals here. See page 19 in the guide.

Total overseas tax paid Total overseas income

17A▶ \$  17B▶ \$

If your total overseas income includes a withdrawal and/or transfer from a foreign superannuation scheme, please read page 20 in the guide and tick Box 17C if applicable. 17C▶

### FIF – FIF rules apply

Tax Summary Report - Summary tab	IR3 Income Tax Return
1. Income – FIF Income, FIF – FDR method	Put the figure in 1. or 2. as applicable to the method you have selected in box <b>17B*</b>
2. Income – FIF Income, FIF – CV method	
3. Tax Credits – Foreign Tax Credit, Dividends - FIF	Put this figure in box <b>17A**</b>

\* This figure cannot be less than zero.

\*\*In some cases, your ability to claim a foreign tax credit may be restricted, and therefore you may not be able to include the full amount in your return. In particular, the credit available in relation to a specific fund cannot exceed your New Zealand tax liability on that fund.

17 Did you receive any **overseas income**? Attach proof of overseas tax paid and a letter detailing any overseas losses to the return.

No  Go to Question 18      Yes  Print the totals here. See page 19 in the guide.

Total overseas tax paid Total overseas income

17A▶ \$  17B▶ \$

If your total overseas income includes a withdrawal and/or transfer from a foreign superannuation scheme, please read page 20 in the guide and tick Box 17C if applicable. 17C▶

## Term Deposits

Any Resident Withholding Tax (RWT) that is deducted for your term deposit investments will be reported to the IRD. You will only pay RWT when you receive interest from your Term Deposit. If you do need to manually enter in any figures, below is where you enter this information on your IR3.

Tax Summary Report – Summary tab	IR3 Income Tax Return
1. Interest – Coupons, Domestic	Put this figure in box <b>13B</b>
2. Tax Credits – RWT, Coupons – Non FIF	Put this figure in box <b>13A</b>

**13** Did you have any **New Zealand interest** paid or credited to you? Include any interest from partnerships, look-through companies and/or trusts. Keep your interest statements or certificates.

No  Go to Question 14      Yes  Print the totals here. See page 15 in the guide.

Total RWT Total gross interest

**13A** ▶ \$  **13B** ▶ \$

If any of your interest was received from a partnership, look-through company, trust and/or estate, please tick 13C. **13C** ▶

# CONTACT US

If you're still unsure about your tax obligations or how to complete your IR3 tax return form, give us a call and we can point you in the right direction. Alternatively, it is recommended that you seek independent tax advice.
